

JAPANESE SEA-BORNE TROOPS THRUST NEARER INDIA AS AGREEMENT SOUGHT

COMPROMISE PLAN INDIA INDEPENDENCE MAY BE NEGOTIATED

BRITISH ENVOY CRIPPS AND ALL-INDIA CONGRESS PARTY WILLING PLAY BALL

By H. R. STIMSON.
NEW DELHI, India April 2.—(AP)—Both Sir Stafford Cripps, special British envoy to India, and the all-India congress party indicated today a willingness to negotiate a compromise solution of the Indian independence problem.

The executive committee of the party, India's most powerful political organization, was expected to deliver tonight its detailed rejection of a British offer of post-war dominion status in return for full participation now under British guidance.

But it was understood that the committee also was drafting counter-proposals to be submitted to Cripps if the British war cabinet members so desired.

By postponing his departure for home in the midst of the evident stalemate over Britain's take-it-or-leave-it offer, Cripps seemed to have left the door ajar for negotiation on counter-proposals.

Before he did this and before it became known that the Congress party committee was drafting a counter-plan, virtually all hope for the success of the Cripps mission had vanished.

The All-India radio said that Cripps' resignation of the Congress party's resolution of reply to the British proposal this afternoon when he was visited by Maulana Abdul Kalam Azad, party president, and Pandit Nehru, past president.

(The two Indian leaders stayed for an hour, and upon their departure, Cripps told reporters, "I hope there will be many more meetings between us.")

Reasons Detailed.
The party's reply, approved after five days of deliberation, was reported to be detailed in reasons for the rejection.

It was understood that criticism of the British proposal that direction of Indian defense remain entirely in British hands rather than Indian military men, and to question both the option which Britain would give certain provinces to remain outside the future Indian union and the representation of the Indian principalities in the future constitution-making body.

It was possible that the text of the resolution, which would not be published immediately. Thus, before it is brought into the open, Cripps could devote further efforts to narrow the difficulties he referred to in the press conference in which he announced delay of his departure.

Downs Jap Planes

In a letter to his parents, Mr. and Mrs. H. G. McWhorter of this city, Lieut. Robert C. McWhorter, above, said that he had knocked three Japanese bombers from the air, two confirmed, in the battles in the Pacific. He has been promoted to First Lieutenant and is now resting somewhere in Australia, according to the letter.

He stated that he had been in some of the hottest fighting and had his plane shot full of holes one time. He said that he had not yet shot down a Japanese pursuit ship.

Lieut. McWhorter received his wings last year and was last seriously injured when his plane crashed in Louisiana.

SHORTAGE OF FARM LABOR EXPECTED TO SPREAD OVER NATION

WITH COTTON COMING UP IN SOUTH TEXAS, LABOR CRISIS BELIEVED TO START

By HUGH WILLIAMSON.
DALLAS, April 2.—(AP)—Cotton is just beginning to come up in the lush Rio Grande Valley, down at the far Southern tip of Texas, and with it arises a farm labor shortage that will spread over the nation, say government and private observers.

Victor J. Schoffemeyer, agricultural editor of the Dallas Morning News, points out that a triple squeeze will be applied: Not only has the reservoir of labor been lowered by the draft and wartime industry, but the demand has grown because of increased plantings in the food for war program, and machinery is inadequate to make up for lost manpower.

The pinch will be felt when cotton chipping time arrives, Schoffemeyer predicts. For most of Texas, the planting season is in May. Another call will go out for pickers—in the autumn. Cotton-growing states have always scrambled for workers during these two critical periods.

But this year there will be even keener competition for laborers; other sections of the nation are having their troubles, too.

B. J. Walker of the Farm Security Administration's regional office says a survey which shows that 80,000 persons will be taken out of Texas to the sugar belt for the six-month season.

SINKING OF JAP SUB BY U. S. ARMY BOMBER REPORTED

LIEUT. EDMUNDSON OF SANTA MONICA, CALIF., DECORATED FOR BRAVERY

By WENDELL WEBB.
HONOLULU, April 2.—(AP)—The sinking of a Japanese submarine by a U. S. army bomber, skippered by a youth who came through the December holocaust in his bedroom slippers, came to light today as the result of a commendation by Secretary of the Navy Knox.

The skipper was First Lieut. James V. Edmundson, 26, of Santa Monica, Calif., former football star at Santa Monica Junior College, an eager, rugged youth who "would do almost anything to get to Australia or anywhere else to fight."

He was decorated with the order of the purple heart today, but not for his feat in the air. It was because he was knocked down by a bomb fragment Dec. 7 and got up again to do what he could to stem the Japanese attack. He still carries the scar on his forehead.

Lieut. Edmundson has flown more than 40,000 miles on Hawaiian down patrol, but the highlight of his career came when he sighted a submarine periscope just breaking the water off the island of Oahu a few weeks ago.

"Yes, I saw it, but it was my crew that got it," he declared. "Those boys really went to town."

GERMAN WARSHIPS BATTERED BRITISH CHARTERED VESSELS

NORWEGIAN SHIPS MEET OPPOSITION IN EFFORT TO QUIT SWEDEN

STOCKHOLM, April 2.—(AP)—German warships blocking the Skagerrak were declared today to have battered or sunk two and possibly four of eleven British-chartered Norwegian merchant ships which risked a daring dash to England from Göteborg, Sweden, and although several others were reported turned back racing toward safety.

The merchantmen which slipped out of Göteborg in a blinding snowstorm Tuesday night ran into a blockade of Nazi warcraft which had laid in wait for them since the Germans feared the swiftness of the ships would make it impossible to seize control of the ships through action in the Swedish courts.

From the stories of fishermen and residents of the little coastal towns which shied with cannonading Tuesday night and yesterday, Swedish newspapers compiled this record of the fate of the ships:

Two of the merchantmen, the 12,358-ton whale oil ship Skytteren, and the 6,222-ton Buccanier, were sunk by German gunfire almost as soon as they passed the three-mile territorial limit outside Göteborg.

One ship went aground; one was seen burning at sea and was presumed sunk; two, cut off from hope of escape, turned back into a Swedish port yesterday afternoon. At least two more were said to be returning, perhaps damaged.

At least two large cargo vessels were given at least a fighting chance of breaking through. Fishermen said they were last seen yesterday, undamaged and racing for the open sea.

Changes Urged In Production For War Necessities

WASHINGTON, April 2.—(AP)—Criticism of the nation's armed forces for a "poor job over-all planning," the senate defense investigating committee recommended today that the war production board direct a drive to break the bottlenecks which are "holding up peak production" in the war plane program.

Summarizing a subcommittee's visit to the west coast, the committee reported that plane assembly lines were being held up by running to capacity because of recurring shortages of some vital parts being produced by subcontractors.

"A poor job of over-all planning, inefficient use of materials, and lack of coordination in the production of aircraft," the committee said in its report. "The usual tape and delays in making contracts also were partly responsible."

The committee recommended that the WPB set up a section charged with over-all planning for aircraft production, and that the production executive drafted from the industry.

The report recommended also that "instead of wasting its energies on a generalized plea for 'fair play' and 'cooperation' by the industry, the subcommittee's certain knowledge and probably in other fields, really holding up peak production."

Income and Outgo Both Set Records Month of March

WASHINGTON, April 2.—(AP)—Income tax and war spending to take broke all records in March. Completing the month's tabulations, the treasury said today that income and excess profits tax revenue aggregated \$3,082,627,146, which was two and one-half times the previous record of \$1,207,512,501 set in March last year.

Cash outlays for war activities set a new peak in March of \$2,796,957,580. This was about \$950,000,000 more than February, the largest month-to-month increase since the beginning of the defense program in the middle of 1940.

BRITISH BOMBERS RAID GERMAN WAR PLANTS AT PARIS

NAZI HIGH COMMAND ANNOUNCES 105 ALLIED SHIPS SUNK DURING MARCH

(By The Associated Press.)
British bombers smashed anew at German war foundries in the environs of Paris last night, the London air ministry announced today, while Adolf Hitler's high command reported "very successful" attacks against United States and British shipping in the grim battle of the Atlantic.

As if countering a U. S. navy announcement that 28 axis submarines had been sunk or presumed sunk by United States forces so far, the Nazi high command asserted that the German navy and air force destroyed 105 allied merchant ships totaling 646,900 tons during the month of March.

U-boats alone sank 81 ships totaling 584,900 tons, the German communiqué said, adding that 30 other merchant vessels were heavily damaged by torpedo or bomb hits.

Informed quarters in Washington said America's anti-submarine campaign was being stepped up rapidly. A new campaign was expected to be launched by 300 U-boats, and declared that the Germans had failed in their major objective—to divert U. S. naval strength from more vital war fronts.

Paris Outskirts Bombed.
Vichy (French) news agency dispatches said RAF bombers striking into occupied France during the night attacked a number of points on the outskirts of Paris, particularly at Rueil, Sannois and Poissy.

The British air ministry said the heaviest blows were rained on Paris Outskirts War, Page 6

ICKES IN ANOTHER OIL CONTROVERSY; WANTS TEXAS CRUDE

HIS SUGGESTIONS NOT FAVORED BY OLIN CULBERSON, WHO MAKES STATEMENT

AUSTIN, April 2.—(AP)—Opposition to a proposal by Federal Oil Commissioner Harold Ickes to increase production in the Panhandle district crude production by 100,000 barrels a day, a member of the Texas railroad commission to a majority of the state oil regulatory agency today.

Member Jerry Sadler of the commission, who was in Austin with his colleagues Olin Culbertson and Commissioner Ernest O. Thompson was out of the city.

"I think all fields in the state should be allowed to share ratably in the production of oil," Sadler declared. "The petroleum coordinator except those which have been exempted from nine of the shutdown days to supply the war machines," Sadler declared.

"It is my opinion the petroleum coordinator has been misinformed by his advisors who are looking out for their own interests and not for the welfare of the state as a whole. I concur in the telegram sent by Commissioner Culbertson to Mr. Ickes."

"Idle pipe line facilities are available to secure this additional oil."

NEW HOPE THAT INDIA MAY BE INDUCED TO ACCEPT OFFER OF BRITAIN WAS REVIVED THURSDAY

By DEWITT MACKENZIE.
Some hope that India might be persuaded to accept the offer of dominion status was injected into the crisis today by British Envoy Sir Stafford Cripps, who announced in New Delhi that "with a few days more we may be able to solve the difficulties."

Thus the world has an eleventh hour reprieve from a possible tragedy, which would be as much military as political. In view of the danger of failure to reach an agreement, many readers are asking what is likely to happen if that unhappy position is reached. Well, the answer to that is rather a tall order to fill, especially when we are talking about a country so inflammable as India, but there are some things which stand out starkly. For instance:

Since the Indian nationalists have made cooperation with Britain in the war effort dependent on solution of their claim for independence, they presumably will return to passive resistance. This would create a grave weakness in

SPRING OFFENSIVE AS CAUCASUS THREAT

Renewed German effort to crack the front between Orel and Taganrog (1) and to take over Crimea—where Russians resisted bitterly at Sevastopol—were regarded as a prelude to the long-heralded Nazi drive on oil-rich Caucasus. The Axis claimed a Red smash at Kharkov (2) was repulsed. Axis troops are massed, also, on the Thrace border (3), menacing Turkey, Cyprus and Egypt. Meeting in Iran would follow Nazi success and Jap push through India (4).

EX-CONVICT HELD IN KILLING THREE MICHIGAN FARMERS

YOUTH ADMITS KILING ONE IN VENGEANCE AND OTHERS TO PROTECT FLIGHT

PONTIAC, Mich., April 2.—(AP)—Dominick Piccone, 20-year-old ex-convict who killed three Michigan farmers in a wild 24-hour murderous rampage, was sentenced today to life imprisonment at hard labor and solitary confinement in Circuit Court here today.

Michigan law provides no more severe punishment.

Piccone, who was captured by State police on a country road near Otisville, Mich., at 3:30 a. m. today, was brought before Circuit Judge J. H. Russell Holland shortly before noon.

He pleaded guilty to first degree murder in the cold-blooded shootings of Cassius E. Barber, 71, in Barber's farm home, two miles east of Oxford, Mich., Tuesday night.

Piccone had threatened to kill Barber, after the two engaged in an argument over a pending money while the youth was employed on the farm as a paroled juvenile delinquent several years ago.

M. E. FOSTER OF HOUSTON SUCCEUMS TO HEART ATTACK

WIDELY KNOWN NEWSPAPER EDITOR, MEFO, FOUNDER OF CHRONICLE, DIES

HOUSTON, April 2.—(AP)—Foster, 71, widely known newspaper editor, died suddenly yesterday at his home of a heart attack that came while he was seated with his wife in the living room, preparing to listen to a radio program.

Mefo was active in newspaper work until March, 1941, when he retired. Seven hundred persons attended a testimonial dinner in his honor.

Foster joined the Houston Post's staff at the age of 25. Three years later he was managing editor of the paper.

Prospering in all ventures when the Spindletop field opened, he left the Post and founded the Houston Chronicle, working for twenty-five years as writer and business executive.

He sold the Chronicle in 1926, moved to California and later returned to Texas as editor of the Houston Press.

Foster gained national fame as a crusading journalist; his sharp attack upon the Ku Klux Klan was credited with bringing about the decline of that organization in Texas.

Survivors include his widow, two daughters, Mrs. Neil Masteron of New Orleans and Mrs. C. O. Lambert, Jr., of Salt Lake City, Utah; one brother, A. B. Foster of Houston; one niece, Mrs. Guy Blount of Beaumont and three grandchildren, Marcellus E. Foster, or "Mefo."

PROFIT CEILING ON WAR CONTRACTS HAS SENATE ATTENTION

ADMINISTRATION LEADERS PLAN SEEK COMPROMISE ON HOUSE LIMIT

WASHINGTON, April 2.—(AP)—Senator Taft (Rep.) of Ohio, proposed today creation of a board to fix ceilings on war profits, while administration leaders moved to compromise a 6 per cent profit limitation inserted by the house in a pending military appropriations bill.

Taft told reporters he had little doubt that the senate appropriations committee would strike the house amendment out of the \$18,300,000,000 military measure. However, Chairman Donald M. Nelson of the war production board and army and navy officials were working on a substitute which they planned to present to the committee.

Nelson was reported to have told the committee yesterday that flat limitation was unworkable. Agreeing with Nelson's conclusion, Taft said he was drafting an amendment which would set up a board of army, navy and war production experts, charged with fixing the margin of profit that could be made on individual military items.

For instance, he said, this board could establish a fair profit for the manufacture of a medium tank or

DISNEY DECLARES HOUSE WILL FAVOR SALES TAX PROGRAM

BIG INCREASES IN INDIVIDUAL AND CORPORATION TAXES CLAIMED OPPOSED

WASHINGTON, April 2.—(AP)—Representative Disney (D-Ok.) said today a survey he had made showed that "an overwhelming majority" of the house would vote for a sales tax rather than for big increases in individual and corporation taxes proposed by the treasury.

Asserting that congress could not raise \$7,000,000,000 from corporations and individuals, Disney said in a statement that "we will be compelled to go to a sales tax, much as we dislike it."

Disney, member of the house ways and means committee, which has been studying new sources of revenue for a month, said in his statement:

"I have made a general survey of the house which convinces me that the overwhelming majority will vote for a sales tax, rather than to increase income taxes six fold in two years as would be the case under the treasury's recommendations on average incomes."

The 1941 tax bill trebled the average tax paid by low and middle income brackets and the administration's new proposals would double existing levies.

Secretary Morgenthau presented a \$7,610,000,000 tax program to the committee March 3, with \$3,000,000,000 to be obtained from in-

AMERICA'S ANTI-SUB WARFARE NOW BEING STEPPED UP RAPIDLY

ALL-OUT AXIS U-BOAT CAMPAIGN EXPECTED BY HUNDREDS VESSELS IN SUMMER

By ROY G. BLANCH.
WASHINGTON, April 2.—(AP)—America's anti-submarine campaign is being stepped up rapidly to meet an expected all-out summer drive by 300 to 400 U-boats, reliable sources said today.

The navy announced late yesterday that 28 axis submarines had been sunk or presumed sunk by U. S. forces thus far. Naval officers said, however, that the rate of destruction was still too low to check the German drive. They gave this picture of the situation:

Germany had at the very least 128 ocean-going submarines before Dec. 7 and 180 more building for active service by March 10. New evidence indicates that this figure is ultra-conservative, and salvaged parts of destroyed submarines show the Germans have developed very rapid methods of construction.

Although Germany has suffered heavy U-boat casualties thus far, the rate of sinking has not slowed the present U-boat campaign and would be a dubious advantage against a more intense drive.

Even so, the Germans have failed to divert U. S. naval strength from more vital war fronts to form convoys in America.

JAPAN AIR ATTACKS CONTINUE ON HARBOR DEFENSES BUT ARE INEFFECTIVE

WASHINGTON, April 2.—(AP)—The war department said today that Japanese bombers were forced to fly at such altitudes that their bombing was ineffective. At the same time the big guns of Fort Mills on Coronado Island engaged in a duel with Japanese batteries on the south shore of the bay.

The communiqué said neither bombing nor shelling inflicted damage on the Manila Bay harbor defenses, but the war department said the Japanese bombers were forced to fly at such altitudes that their bombing was ineffective. At the same time the big guns of Fort Mills on Coronado Island engaged in a duel with Japanese batteries on the south shore of the bay.

INVADERS REPORTED LANDING AT AKYAB, BURMA WEST COAST

LANDING HEIGHTENS THE THREAT TO INDIA AND IMPERILS BRITISH REAR

By ROGER D. GREENE.
Associated Press War Editor.
Japanese sea-borne troops thrusting closer to India were reported today to have landed at the chief West Burma port of Akyab, only 100 miles from the Burma-India frontier, as prospects for mobilizing India's 390,000,000 on the side of the United Nations took a sudden brightening turn.

A Chinese spokesman in Chungking said the Japanese landing at Akyab is only 350 miles across the upper Bay of Bengal from Calcutta.

Besides heightening the threat of a Japanese invasion of India, the landing directly imperiled the rear of British Imperial lines now guarding the rich central Burma oil fields.

Meanwhile, dispatches from Australia indicated that Japan's invasion forces were sending "considerable" air reinforcements, which are being sent to the overland drive in New Guinea were preparing to launch a sea-borne attack on the key allied base at Port Moresby, only 300 miles across the Torres Strait from Australia itself.

Such Assault Indicated.
The Sydney Sun declared such an assault was "suggested by recent movements of enemy ships, which are being constantly attacked at Lao and Salamaua by the allied air forces."

Lao and Salamaua lie on the northeast coast of New Guinea, less than 200 miles above Port Moresby.

The Sun's correspondent at United Nations headquarters said eight fully-equipped Japanese divisions—between 120,000 and 160,000 troops—were massed in Java and at Singapore awaiting the signal for Japan's next major offensive.

The enemy forces were said to include large numbers of parachute troops.

The newspaper also reported that the Japanese were sending "considerable" aerial reinforcements, threatening to challenge the air superiority won by United States and Australian fliers in the battle for the approaches to Australia.

Results In Air.
A British broadcast said American and Aussie fliers had destroyed or crippled 96 Japanese planes with a loss of only 12 or their own since March 10.

Wary of the stiff allied fighter defenses, Japanese planes made their first night attack on Darwin, Australia's north coast port, since March 10.

Cotton Fabric That Gives Dull Glow In Blackouts Reported

MEMPHIS, Tenn., March 31.—(P)—Cotton fabrics which give off a dull glow during blackouts is King Cotton's latest contribution to the war effort.

The National Cotton Council said the fabric—cotton-backed oil cloth—is impregnated with luminescent pigments which store up light for release when normal illumination is absent.

The council said the cloth could be used to edge steps and hand rails in homes and office buildings and to outline arm and hat bands and guide lines for exits.

KERENS, March 31.—(Spl.)—Kerens women attending the north zone meeting of Women's Society of Christian Service of the Methodist church, which convened in Blooming Grove last week, were: Mrs. Andrew Talley, zone chairman, who presided; Mrs. A. B. Keen, who presented a part of the program; Mrs. August Hill,

ARMY ENLISTMENTS IN MARCH CONTINUE AT STEADY PACE

Enlistments in the United States army continued at a fairly steady pace in March at the Corsicana recruiting sub-station according to Sergeant M. A. Strickland, officer in charge.

A few enlistments of men over 35 years of age were reported and numerous inquiries, but the bulk of the recruits were aviation cadets.

The sergeant reported that under new regulations men from 18 through 44 could enlist and would be given their preference of branches of the service as nearly as possible at induction centers.

Mrs. Herman Inmon, Mrs. F. G. Massey, Mrs. H. P. McCown, Mrs. Robert Lowe, Mrs. T. M. Shelton, Jr., Mrs. Kate Hillman, Mrs. R. E. Massey, Mrs. A. Baltzger, Mrs. C. C. Sessions, and the Rev. C. C. Sessions, pastor of the Kerens Methodist church.

Mildred H. D. Club Met Monday in Home Mrs. Fred Gullett

The Mildred Home Demonstration Club met Tuesday, March 24, in the home of Mrs. Fred Gullett with nine members and four visitors present.

After a short business session, an interesting program was given by Mrs. Gullett, Mrs. Clay Miller, Mrs. A. C. Chonte, Mrs. J. C. Buck, visitor, closed the program with a reading, "Our Flag."

The hostess served sandwiches, salad, cookies and iced tea. The next meeting will be held at the home of Mrs. R. Gunton on Tuesday, April 14.

Recent Bride Was Luncheon Honoree In Dallas Saturday

Mrs. William J. Anderson of Dallas, who was Miss Laura Lee Kirk, before her recent marriage at her home of her sister, Mrs. Joel C. Trimble, was named honoree with a luncheon at the Mutual Room in Dallas Saturday.

Hostesses were Miss Grace Treadwell and Miss Helen Perdue. An arrangement of pink gladioli and stock centered the table.

Among the guests were Mrs. Trimble and Miss Jerry Sears, Corsicana, and Mrs. William Hahn and Mrs. R. P. Walker, Kerens.

CORSICANA, TEX., APRIL 3, 1942

THE GERMAN FUTURE.

After the war, what? Of all peoples the Germans may well ask that. Unless they actually conquer and people cover when they appear, it looks as if they are going to find life rather hard. Not harder than they deserve, but probably a good deal harder than they expect. They seem to be rather innocent in regard to their relations with the outside world. They can bomb a city to fragments, deport and starve its inhabitants, and then feel astonished and hurt because they are not liked.

They will have plenty of opportunity to think it all out. For a long time to come it will be no recommendation outside of Germany for a traveling salesman to announce that he represents such-and-such a firm of Berlin or Leipzig. Nor will German vacationers be welcome. Too many people will remember the part such holiday-seekers played as spies in Norway and elsewhere.

The Germans might as well get used to the idea that there is such a thing as retribution.

COLOSSAL SCRAP

Scrap metal is one of the subjects that occupy many people's waking moments, and properly so. There have been some rather large transactions, but perhaps hardly any as large as that associated with the island of Rhodes in the Eastern Mediterranean, which the British have just bombarded.

Rhodes was long famous as the site of the Colossus, one of the so-called seven wonders of the ancient world. It was a 125-foot statue of brass, representing the god Apollo, which stood at the entrance of one of the harbors. Ships were supposed to sail under this huge figure, which stood astride the channel. Finally it was overthrown by an earthquake, leaving enormous fragments which lay undisturbed for 800 years. At last in 656 A.D. the Arabs conquered the island, and sold the remains to a dealer in old metal. It took 900 camels to carry them all away.

What we could do now with an unused Colossus! There are a good many old bronze statues around which we could well spare.

FRANCE UNDER BLUM

The Riom trials call American attention once more to France. That the social reforms of the Blum administration were among the chief causes of its disintegration has long been a popular idea. The facts do not bear this out.

According to Henry W. Ehrmann, a New York writer on social and economic subjects, who has gone into the question carefully, Blum took over at a time when France was suffering from grave weakness. The Bulletin of the Comite des Forges, French association of iron and steel manufacturers, called the years before the 1936 elections which brought Blum into office, "the worst period we have ever witnessed in time of peace."

Blum's measures, the 40-hour week, paid vacation, provisions for collective bargaining, faced, when enacted, astonishingly little opposition, even from conservatives. Nor did these laws stifle business. The profits of the chemical industry increased, under Blum, 112

JUST FOLKS

(Copyright, 1937, Edgar A. Guest)

READY

We've rigged up the cellar with buckets of cand; We've laid down the mattress and flashlights down there. When the signal is sounded our brave little band Will do as instructed when Japs are in air. But I can't guarantee, in event of raid, We'll follow his warning: "And don't be afraid!"

No longer complacent, our Nellie's aroused, We've tubs filled with water, we've working attire. For bedding and blankets the attic she's browsed. And she's learned what to do if the house catches fire. She's stocking the cellar with canned beans and meat; But during an air raid I'm sure I won't eat.

I'm to be warden of home and the flock. My duty's to see that all hands get below. And I'm to be calm though the building may rock. And I'm to stay cool to the end of the show. "They won't catch us napping!" says Nellie to me. That's one thing I'm sure that I can guarantee!

per cent over the record of the previous year. The profits for metallurgy and commerce increased 78 per cent, foodstuffs 39 per cent and mining 23 per cent.

The trouble lay elsewhere. French business methods did not keep abreast of those used by their rivals. Credit was inadequate, especially for small businesses. Vocational training and the development of apprentices had long been neglected, leaving a serious shortage of skilled workers. More than anything else, France's economic structure needed overhauling. A few large groups had too great control of banking and industry. France needed to broaden the base.

INDIAN WAR.

A war in India, seen as part of a world-wide struggle, would be something new in history and rather unpredictable. The French and English fought each other there in the 1750's as part of the Seven Years' War in Europe, while fighting also the French and Indian War in this country. Napoleon had dreams of invading India; his ill-fated Egyptian expedition was meant to lead to this. But never before has a campaign in India been a major feature of the war.

It is not merely a long time since India has become involved in a general war. Another reason for finding it hard to tell just what will happen is seen in India's many special problems. Technically a part of Asia, it is for practical purposes cut off from the rest of the continent by the great mountain barrier of the Himalayas. And extending over 1,800,000 square miles, more than half the area of the United States, it is really a continent in itself.

WOMEN AND TRACTORS.

A manufacturer of farm machinery has begun to train women to run tractors and other farm machines. Dealers will train women in their communities. Besides the tractors, women will learn to operate mechanical dairy machines, power plows and other special implements. They will be taught to repair and service the machines.

In this machine age, women need to learn how to take care of machinery. With the tremendous need for food now developing all over the world, they need to know how to work the machines that help to produce it.

We have long known that much which has come to pass was prophesied in the Bible. Yet it came as a particular surprise to be referred to Isaiah 3:18 for a statement bearing on these times, and to find it: "In that day the Lord will take away their round tires like the moon."

Buy a bond today—keep a Jap away. What, you heard that before? Well, why not buy two bonds and keep 'em farther away?

It doesn't seem fair to make Knudsen a general and not make Nelson a commodore.

"GOOD OLD SUMMER TIME"**WARNING TO TIRE DEALERS ON PRICES FOR SECOND HANDS**

A warning to automobile tire dealers who are charging excessive prices for used tires in violation of price ceilings established by the Office of Price Administration was issued today by the Navarro County Rationing Board officials who pointed out that heavy penalties are imposed on those convicted.

Rules and regulations regarding tires must be strictly adhered to, Chairman Wilbur A. Wright admonished Wednesday morning. Those charging excessive prices for used tires in violation of price ceiling restrictions are subject to heavy fines or imprisonment or both, he said.

Pointing out that some confusion exists as to who is eligible for restricted tires, Chairman Wright asserted that those needing tires will have to qualify according to standing regulations for re-treads. Restrictions have been placed on re-treads similar to those placed on new tires, he said, making them available only to those qualified.

While officials of the two Navarro county draft boards had not received copies of the memorandum released by national officials in Washington on Wednesday indicating that those needing tires in February might be called to service within the next two months, they indicated little surprise.

It was admitted that both boards would exhaust almost all available white manpower in filling April quotas, and May and June calls would have to be from later registrants.

One board reported that some cases were on appeal from reclassification and until decisions were received on them some similar work was being delayed in order to make the regulations apply uniformly.

It was estimated several days would be required yet before sending out of questionnaires would be started to February registrants but the process might be speeded under the new orders.

JOHN E. TREITHART RITES ON WEDNESDAY; BURIAL IN OAKWOOD

Funeral services for John E. Treithart, age 73 years, who died here Tuesday afternoon, were held Wednesday afternoon at 3 o'clock from the Sutherland-McCammon Chapel. The rites were conducted by Rev. Henry Price, Methodist minister of Dawson. Burial was in Oakwood cemetery.

Surviving are his wife, a daughter, Mrs. E. F. Hubbard, Dawson and other relatives.

Mr. Treithart was a native of Ohio, but had resided in Navarro County for many years. He was a former employee of the Oil City Iron Works and the American Well and Prospecting Company. He moved to Dawson several years ago and had been a resident of that city since that time.

Rites Wednesday In Dallas for Former Resident Corsicana

Funeral services for Jessie Polk Wiley, aged 78 years, former Corsicanan, who died in Dallas with a heart attack Tuesday morning, were scheduled in Dallas Wednesday afternoon where interment was made. He is the father of Mrs. C. C. McQuiston of Corsicana.

Dillard Assumes Chamber Duties

Robert G. Dillard, new manager of the Corsicana Chamber of Commerce, and his family have arrived in the city and he assumed his new duties Wednesday. He was formerly manager of the Scurry County

NAVARRO COUNTY TAKES LARGE SPOT IN LEGION MEETING

HILLSBORO, March 31.—Officers were elected and resolutions were passed Sunday at the District 8 American Legion and Auxiliary convention here urging that men in the present war be made eligible for membership in the Legion.

Officers named included Fred Parsons, Bryan, district commander, and R. D. Mabry, Kerens, vice commander, for the Legion, and Mrs. Andrew G. Steele of Corsicana and Mrs. Fay Fultz of Mexia are chairman and vice chairman, respectively, of the Auxiliary. They will take office at the state convention later in Mineral Wells. John Pauling of Hillsboro, retiring district commander, was named delegate to the national convention. Recommendations for membership on departmental convention committees include: Credentials, Chester Vaughn, Corsicana; rules, Fred Blucher, Corsicana; Constitution and by-laws, Wayne R. Howell, Corsicana; rehabilitation, R. D. Mabry, Kerens; awards and trophies, Andrew G. Steele, Corsicana; and Floyd H. Graves, Kerens; convention city, Joe Daniel and W. H. Milam, both of Corsicana; Americanism, W. C. Wesson, Kerens.

Mrs. Floyd Graves of Kerens is the retiring district Auxiliary committee woman.

Sun Want Ads Bring Results.

Warn Candidates Placing Placards Designated Hiway

Attention of candidates was called Tuesday to state laws prohibiting the placing of advertising material of any kind on any designated state or federal highway or right-of-way by officials of the Texas Highway Department.

The law forbids the tacking of placards or signs of any kind on fences, signposts, electric or telephone posts or any other structure on the highways or adjoining right-of-way.

Local officials said much advertising material had already been wasted in Navarro County because they were under strict instructions to remove the signs whenever they

were discovered. It was also indicated that state officials planned to prosecute under the provision of the statute in the event the practices were not discontinued.

Week End Kerens Visitors.
 KERENS, March 31.—(Sp.)—Mr. and Mrs. J. B. Smith had with them last week and their son, Kim, government radio inspector of Wichita Falls, and their daughter and son-in-law, Rev. and Mrs. Lee B. Smith and children of Tyler.

HOW LONG WILL THE WAR LAST?

How long will the war last? This question has even the experts baffled. Nobody knows!... But everybody knows that, so long as it continues, the nation's great industries, with the automobile industry setting the pace, will be running full blast turning out materials of war. Acts of aggressor nations which threaten our way of life have forced the elimination of automobile manufacturing. The industry is now geared to maximum production of guns, planes, ships and tanks.

The stock of new automobiles now on hand is available only to "essential users," according to an order issued by the Federal Government. You may be compelled to drive your present car 1, 2, 3 or more years, or even longer. It is important then that your investment in transportation receives the best possible care, for proper maintenance will prolong its service to you. Be certain that everything about it gets attention regularly. The motor, the clutch, the ignition system, the gears, the brakes, the chassis, the steering mechanism and the wheels all should be inspected and serviced at the intervals suggested by the manufacturer, if reliable transportation is to be obtained indefinitely.

Just as one bad apple will spoil all the others, so will one worn or damaged working part of an automobile eventually ruin the others. That is why it is vitally essential to keep every mechanism properly serviced and functioning efficiently all the time. Today's automobiles are built to give long service, if they get proper care. Have your car checked and double-checked frequently to detect and correct defects as soon as they develop. Insure long service.

COURT TO REFUND PAST DUE BONDS OF ROAD DISTRICT 8

**MARVIN M'CLUNG WILL CON-
TINUE AS SUPERINTENDENT
OF COUNTY FARM**

Decision to refund past due bonds of Road District No. 8, Peconic area, near Blooming Grove, and the appointment of Marvin M'Clung to continue as superintendent of the county farm on a temporary basis highlighted the Wednesday afternoon session of the commissioners court.

Several minor claims were allowed.

It was brought out that in Road District 8, some \$11,000 in bonds were past due, caused by insufficient collections in the 1930's, although the interest was paid. The refunding is to be undertaken in order that the debt may be retired without the necessity of raising present taxes and extending over a longer period.

M'Clung was retained on the vote of Commissioners C. M. Fitzgerald who nominated him and C. O. Slaughter and Drew Gillen. Commissioner Jim Taylor nominated and voted for Will Archer for the place.

The court has been seeking ways and means for closing the county farm in the Petty's Chapel community for the past several months. One or two minor details remain to be worked out. The superintendent will continue until definite decision is made as to the permanent closing of the institution maintained for many years.

The court recessed until Thursday morning.

JAMES C. COCKERELL DIED AT PROVIDENCE HOME ON WEDNESDAY

James C. Cockerell, aged 71 years, native Texan, died at his home in the Providence community Wednesday afternoon. Funeral services were held Thursday afternoon at 3 o'clock from the Providence church. Burial was in the Eureka cemetery. The rites were conducted by Rev. T. R. Bond. He had resided at Providence for 38 years.

Survivors are his wife of Providence, two sons, W. C. Cockerell, New Orleans, and L. R. Cockerell, Longview; a daughter, Mrs. Alton Baker, Pryor, Okla.; three brothers, W. H. Cockerell, Eureka; H. R. Cockerell, Kerens, and J. P. Cockerell, Palestine; and two sisters, Miss Ruby Cockerell, Lawrence, Kan., and Mrs. Will Hale, Brownshoro.

Palbearers were C. S. Watkins, Buck Montgomery, Luther Greer, Loyd Land, B. F. Hall and Dink Harris.

Corley Funeral Home was in charge.

YOUNG AMERICA AND THE WAR

Don't Keep 'Em In The Dark About The News

NO WAR JITTERS for these London children. Cared for at the war nursery at Bethnal Green, these little girls accept the war with British calm.

By DOROTHY ROE
Wide World Feature Writer

Should children be allowed to hear what the newspaper headlines say?

This is the question being asked more and more open days as American families make the daily newspaper and the radio in the living room a central gathering point.

The answer, given after careful consideration by authorities of the Child Study Association of America, is "It's all right if you don't overdo it."

They Know What's Up.
It would be foolish to attempt to keep children from hearing any war news. It's useless to pretend that things are the same in America as they were before December 7, 1941. Children naturally are aware of the changed tempo of the times, the new urgency. To make a mystery of the war would be not only unfair, but dangerous.

OPENING OF NURSERY SCHOOL HERE BEING PLANNED EARLY DAY

**MEETING ADVISORY BOARD
HELD WEDNESDAY AFTER-
NOON TO COMPLETE PLANS**

Plans are rapidly being perfected for the opening of the Cornicana Nursery School, it was announced at a meeting of the advisory board Wednesday afternoon at Kinloe House.

The old recreation hall of the Eleventh Avenue Methodist Church has been secured as a building and Mrs. H. R. Stroube's circle of Women's Society for Christian Service of the First Methodist Church, will have charge of the installation of equipment. This circle has already appointed various committees for that work.

The advisory board will meet in two weeks at the nursery school building and set a definite date for the opening of the school, according to an announcement made at the advisory board meeting.

Mrs. O. R. Kusler, Waco, district supervisor of WPA nursery schools, met with the advisory board Wednesday and explained in detail the method of operating the school. She also told of the successful functioning of schools of this type in other cities.

WPA will furnish the employed help and part of the food, but will not pay all expenses in connection with the school, she announced.

In addition to the WPA aid the city and the Drane Community Foundation will assist in operating the school, and any financial contribution anyone wishes to make will be greatly appreciated.

Mrs. Claude White, chairman of the advisory committee, has announced. The school will be operated for the purpose of taking care of children whose parents work, and have not other way of taking care of them.

Members of the advisory board are Mrs. Claude White, Mrs. Wynne Wooley, Mrs. W. C. Stroube, Mrs. John N. Wheelock,

Radio news bulletins offer children a form of vicarious excitement, a feeling that they have a personal part in the drama of the war.

They Learn Quickly
Mothers are advised to include children in normal conversation about the war, but to find other active outlets for their energies. Children and adults alike may develop "war jitters" after a continuous all-day stream of radio war bulletins. Outdoor activities and games will relieve the tension.

Children in England have learned in a surprisingly short time to take the war and its dangers in stride. A calm and intelligent attitude on the part of parents will remove most of the hazards of undue excitement or anxiety. Children normally are adaptable, thrive in excitement. If their outside interests remain normal, they should be in little danger of "war nerves."

MRS. ESTHER MORRIS DIED WEDNESDAY IN JESTER COMMUNITY

Mrs. Esther Morris, aged 24 years, wife of P. P. Morris of Jester, died at the family residence Wednesday night.

Funeral services will be held from the Jester Assembly of God church Thursday afternoon at 5 o'clock. Burial will be in the Dawson cemetery. The rites will be conducted by Rev. R. L. Tomlinson.

Surviving are her husband and a daughter, Metty Ann Morris, both of Jester; father, J. E. Cockard, Purdon; two brothers, Charles F. and Elias Cockard, both of Purdon; and other relatives.

Palbearers will be Loyd Ward, Donald Woodard, Silma Dwyer, Grady Turner, Melvin Turner, Duell Woodard.

Corley Funeral Home is in charge.

Mrs. D. G. Dunbar, Mrs. Robin Brians, Miss Anne Belle Cavender, Miss Vivian Walker, John C. Calhoun, Tom Tyson, Dr. Will Miller and Fred H. Harvey.

Officers are Mrs. Claude White, chairman; Mrs. J. N. Wheelock, vice chairman; Miss Vivian Walker, secretary; Miss Annie Bell Cavender, treasurer; Mrs. Robin Brians, publicity chairman; Mrs. Wynne Wooley, health and foods chairman; Tom Tyson, legal advisor; John C. Calhoun, representative of the city; Fred H. Harvey, representative of the Chamber of Commerce and Dr. Will Miller, medical advisor.

Kind Friends And Voters

I have been asked the question many times by my friends from over the county why I did not make the race for county treasurer for the second term. In answer to this question I will say that the commissioners court answered that question for me when they reduced the county treasurer's salary to one dollar per year beginning with January 1, 1942. They, too, promised in my campaign for county treasurer that I would not seek the office for the second term. I am proud of the interest that my friends have shown me from all parts of the county. On January 1, 1942 I made my official announcement for the office of Justice of the Peace Precinct 1, Place 2. I have the utmost confidence that I can make you a good Justice of the Peace. I want this job because I know that I am fully qualified to fulfill every duty pertaining to that office. I know and every one else knows that I am not physically able to ever again do manual labor. If the army would accept me and give me something that I could do to help our boys lick the Japs, believe me I would be on my way, but so far they have nothing for me to do. I have the same responsibilities as any other man has in supporting a family and my utmost desire is to work at something that I can do to earn a support, and all that I ask is that you give me a chance by helping me to help myself, and in return for this favor I elected I promise you an efficient and economical administration with equal rights to all, allowing special privileges to none. I have a poor way in getting around to see the voters as I have no car or other conveyance, therefore I am coming to you through the columns of the Daily Sun and Semi-Weekly Light, earnestly soliciting your vote and influence in the forthcoming democratic primary election. Respectfully,

JOE E. DANIEL
(Pol. Adv.)

STANDARD OIL CO. OFFICIAL DECLARES LOYALTY NOT SPLIT

CARTEL AGREEMENT WITH GERMAN DYE TRUST FAILED CONFLICT WITH US LOYALTY

WASHINGTON, April 2.—(AP)—Senator O'Mahoney (D-Wyo.) contended today that cartel agreements it had with the German Dye Trust had caused the Standard Oil Co. (New Jersey) to be "bound by two loyalties," but a company official disputed the contention.

Those relations, protested Vice President F. A. Howard of the company, did not produce any "conflict of loyalty with the United States."

Howard was on the witness stand of the senate defense investigating committee when the discussion arose.

O'Mahoney read a letter written by the manager of the Standard Oil Development company on March 20, 1941, under the 1938 agreements with I. G. Farben it would be necessary to refer Japanese and South American synthetic rubber customers to the German cartel.

Howard said this was due to the "simple fact that we did not own the patents in the countries in question, and I. G. did own them."

Standard, he said, could have been sued by I. G. Farben if it attempted to sell products covered by the patents in South America.

O'Mahoney declared that the 1938 agreement, which he described as a "modus vivendi" for operations during the war, required Standard to have one policy in the United States and another in South America, although "South America is bound to the United States by the closest ties in this war."

"Your difficulty," he told Howard, "proceeds from the fact that you are bound by two loyalties. First you are bound by your loyalty to I. G. Farben and secondly you are bound by your loyalty to the United States and its policies. I have no doubt of your choosing the second but it illustrates the difficulties."

Disagreeing, Howard said O'Mahoney was saying that because Standard bought patents in one country and not in another it was creating a double loyalty.

The Wyoming Senator also referred to a cablegram, read into the record earlier from a Standard representative at Yokohama in 1938, suggesting that arrangements be made with Japanese partners who would be influential in helping Standard to overcome "any interruptions of trade."

W. S. Farish, Standard president, interjected that this proposal was turned down.

O'Mahoney observed that nevertheless the cablegram showed "the difficulty a company faces when dealing with the primary interests of the country to which it owes its loyalty."

"Every company engaged in international trade," Farish replied, "has the same difficulty."

"Quite," Mahoney agreed.

Farish said that the company was not creating a double loyalty, but was simply following the normal course of business in international trade.

O'Mahoney said that the company was not creating a double loyalty, but was simply following the normal course of business in international trade.

O'Mahoney said that the company was not creating a double loyalty, but was simply following the normal course of business in international trade.

WHITE HOUSE HAS ENTERED WALLACE- DIES CONTROVERSY

PRESIDENTIAL SECRETARY CITES REPORT AXIS STATIONS REPEAT DIES CHARGES

WASHINGTON, April 2.—(AP)—The White House took note today of the controversy between Vice President Wallace and Representative Dies (Dem., Tex.) by citing a federal communications report that two axis radio stations and one in Vichy had picked up Dies' charge that thirty-five employees of the board of economic warfare were affiliated with Communist front organizations.

William D. Hassett, an assistant presidential secretary, read excerpts from a report from the FCC Monitoring Service. The report said an official German broadcast to North America on Tuesday, another from Vichy on the same day and a third yesterday from station "debunk" which purported to be in this country, had repeated Dies' charge.

Wallace, in replying to Dies, chairman of the house committee on un-American activities, had said the "congressman's statements 'might as well come from Goebbels himself' and that 'the effect on our morale would be less damaging if Mr. Dies were on the Hitler radio station.'"

Hassett said the FCC report was being disclosed on his initiative and that he did not know whether the president even had seen it. Those who came to the White House periodically and not necessarily on request.

Hassett said the White House was not drawing any conclusions, but that the "conclusions are quite obvious."

The official German broadcast as recorded by the FCC and relayed to the press by Hassett carried the caption that "Dies' revelation indicting president" and went on to say:

"An old truth has been proved again by developments in the Berlin radio station. In the Washington, by way of Geneva, Switzerland, comes a report of Communist domination in this news deal organization in the American capital."

"The report states 35 officials in this bureau have been shown to be members of Stalin's world-wide Communist front organization. This accusation was made to Vice President Wallace by Martin Dies, chairman of the committee to combat un-American activity."

"The war against British supply shipping and the United States in March was very successful," said the daily communiqué.

In addition to the 105 vessels listed as sunk, thirty-nine merchantmen were said to have suffered damage from torpedo and bomb hits.

RAF Bombs Polisy. LONDON, April 2.—(AP)—The Royal Air Force bombed the Luftwaffe works at Polisy, on the left bank of the Seine ten miles from Versailles, last night, it was announced today.

Ten British Bombers Downed. BERLIN, From German Broadcasts, April 2.—(AP)—DNB said today that ten British bombers were shot down last night in what it described as "nuisance raids" over Western and Northwestern Germany.

Germany Lost 150 Planes. LONDON, April 2.—(AP)—Germany lost 150 planes during March over the British Isles, the Mediterranean and the European continent exclusively of the Russian front, according to figures released today by British officials. Britain's losses came to 144.

They gave this sectional breakdown: Over Britain—Germany 7, Britain 0. Europe—Germany 69, Britain 102.

Over the Mediterranean area—Germany 93, including 59 brought down by Malta's defenders alone; Britain 100.

In addition the Admiralty reported six axis planes shot down by warships.

Two Small Houses Burned Early Today. Fire department officials estimated loss of \$1,000 resulted from the burning of two small houses owned by Mose Blumrosen at the corner of South Twelfth Street and Broadway, about 8 o'clock Thursday morning. A third house suffered some damage. The buildings were reported filled with waste paper and the origin of the blaze was undetermined.

Rep. Burkett Visits Home. Rep. R. W. Burkett of Eastland, member of the legislative institute of the State House here Wednesday afternoon, left for his home in the final 300-mile dash to England.

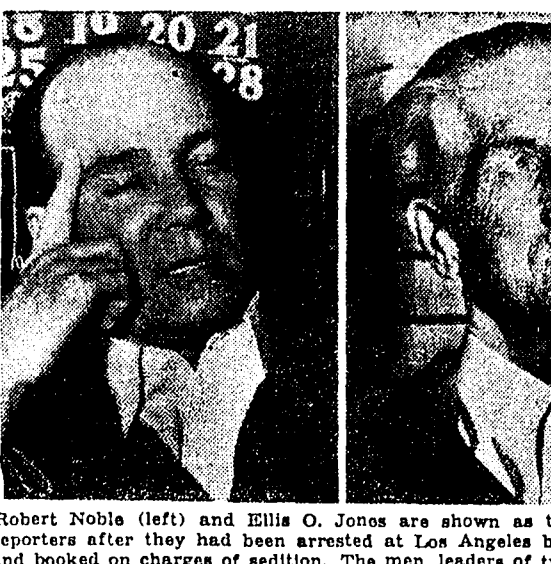

The 11 ships, valued at \$25,000, were said to have been sunk by German submarines.

ACCUSED OF SEDITION

Robert Noble (left) and Ellis O. Jones are shown as they talked to reporters after they had been arrested at Los Angeles by FBI agents and booked on charges of sedition. The men, leaders of two isolationist organizations, were held on \$10,000 bail each. Attorney General Earl Warren of California also ordered their prosecution with seven others on charges of libeling Gen. Douglas MacArthur.

TEXANS AT WAR

(Continued From Page One)

This activates a mechanism that turns on a light affixed to the radio aerial.

To avoid confusion, the light on Clay's car is white, and Bouquet's red.

Police Blotter Blank. AUSTIN, April 2.—(AP)—Maybe the war or something, but Clay's car today could hardly believe their blotter was absolutely blank on the subject of April fool pranks yesterday.

Texas 4-H Club Week. AUSTIN, April 2.—(AP)—Governor Coke R. Stevenson proclaimed 4-H club week in Texas beginning April 5 and urged that more boys and girls join the 85,000 engaged in producing, preserving and preparing food, in making clothing and in other practical farm and home exercises.

Every citizen would do well, the governor added to emulate 4-H club members' pledged for clearer thinking, greater service, truer loyalty and efficient living.

Bexar Auto Licenses Increase. SAN ANTONIO, April 2.—(AP)—Despite tire rationing and ban on new car sales, automobile licenses in Bexar county this year will surpass in number those of last year by almost 7,000, P. E. Dickson, county assessor-collector, estimated today.

Dickson said the total this year would be around 60,100 compared with 73,225 last year.

Wants Ship Work Expedited. ORANGE, April 2.—Captain H. M. Cooley, general inspector of the Bureau of Ships at Washington, today urged that the work of the shipyard be expedited.

He said the shipyard was working on the hull of the USS Texas, which would be launched in June, and that the work was being expedited.

FRIENDS OF PROGRESS FOUNDER DECLARES HE VIOLATED NO LAWS

LOS ANGELES, April 2.—(AP)—Robert Noble, founder of the Isolationist Friends of Progress, looked across the neck high partition of the county jail and said "I shouldn't be going to prison if convicted of sedition."

"I've never cared about myself. I'd feel that I was doing something worthwhile, and that's all any man should want."

Last week Noble shouted "To hell with MacArthur. He's a phony..." at a meeting of his followers.

Noble and Ellis O. Jones, co-leaders of the Friends of Progress, were jailed Tuesday by the Federal Bureau of Investigation on charges of sedition and seditious utterances.

Noble said he was "amazed at these new charges. I made a thorough study of the sedition laws and I am positive I have violated no laws. I do not believe I am guilty of malicious conduct or sedition in saying these things."

These things referred to his repeated public attacks on President Roosevelt's international policy and Gen. MacArthur's military leadership and strategy; to his high altitudes that the Japanese be left alone to rule Europe, and to his reiterated statements that he admires Hitler.

War Profits. (Continued From Page One)

of a certain type of airplane, making all revenue above that amount returnable to the treasury.

Democratic Kentucky likewise has declared that the imposition of an over-all limitation on profits would be ineffective.

Senator Connally (Dem.) of Texas, agreed yesterday to let his motion go over while the senate takes a belated Easter recess of two weeks, but he told reporters he expected a full crop of labor amendments to come when and if the bill finally gets before the chamber.

What Them to Produce. WASHINGTON, April 2.—(AP)—Representative Richard D. James of Pennsylvania, called the attention of the house today to pledges of cooperation sent by William Green, AFL president, and Philip Murray, CIO chief, to Los MacArthur, and then asserted: "Words are good in this war—we want them to produce."

He referred to a textile strike at Fall River, and said "that doesn't smack so very good."

A few minutes later, Rep. Rankin (Dem.) of Mississippi, told the house that he wanted to "congratulate the senate for setting a date to vote on labor legislation."

"We can't unload this responsibility on the president," said Rankin, "his hands are all right."

TAXES. (Continued From Page One)

HILLMAN HAS PRAISE FOR NATIONAL YOUTH TRAINING COURSES

LABOR DIRECTOR OF WAR PRODUCTION BOARD OP- POSES NYA ABANDONMENT

WASHINGTON, April 2.—(AP)—Sidney Hillman, labor director of the war production board, told the senate labor committee today that the National Youth Administration furnished "an important part of our trained manpower" for war work and was a "going concern" and should not be abandoned.

"The manpower training program which will result if we slow down or stop one of our training agencies and transfer the important load it carries to another organization," he said.

Hillman, testifying against the McKellar bill to abolish the NYA and the civilian conservation corps, said 17,720 NYA-trained workers had gone into private industry last month alone, most of them into war plants.

In a prepared statement, the former union leader said 8,000,000 war workers would be needed this year to augment the present 7,500,000.

Asserting the NYA provides training in areas where there are no vocational school systems, Hillman said:

"If the NYA goes, the danger is that in some states training of young people for war work will be left to a non-existent vocational school system."

"At a time when our nation needs every trained worker it can mobilize for war output, we must continue to draw upon training organizations which have proved themselves useful."

He declared the NYA is a desirable part of our over-all industrial manpower program.

SECOND UNIT SHOP COURSE IN NATIONAL DEFENSE BE OPENED

LABOR DIRECTOR OF WAR PRODUCTION BOARD OP- POSES NYA ABANDONMENT

The second unit of the national defense shop course in machine tool operating will start at the State Home Monday, April 6, it has been announced by John H. Robertson, superintendent. The school will run from 1 a. m. to 7 a. m. and is open for men and boys from 18 to 65 years of age. The class is limited to 20 and will run 12 weeks.

One class is now operating from 6 p. m. until 12 midnight. Entries into the classes are secured through the local state employment bureau and is for the purpose of training workers in defense jobs to operate milling machines, engine lathes, shaping machines, drill presses and like machines.

SISTER CORSICANA WOMAN PASSED AWAY IN LOS ANGELES

LABOR DIRECTOR OF WAR PRODUCTION BOARD OP- POSES NYA ABANDONMENT

Mrs. Austin B. Gates, aged 43, Red Cross nurse, died in Los Angeles Saturday night following an extended heart illness. She formerly resided in Hill and Johnson Counties, and was stricken Jan. 7 while on duty with war victims from the Pearl Harbor attack as they arrived in Los Angeles.

Funeral rites are slated at Los Angeles Friday, advises from Hillsboro state. Mrs. Gates was reared at Hillsboro, but had resided in Los Angeles for the past fourteen years. She had been in defense work for the past two years.

Surviving are her husband of Los Angeles, two sisters, Mrs. Jim Hammock, husband and daughter, Mrs. Posey Hollingsworth, Corsicana, and a number of nephews.

GUY LOVE ELECTED
PRESIDENT LOCAL
CREDIT ASSOCIATION

Guy R. Love was elected president of the Corsicana Production Credit Association at the last regular meeting of the board of directors. It has been announced by R. F. Marshall, secretary.

Love succeeds J. P. Bellow, who died early in March. L. C. Park of Ennis was elected vice president to succeed Mr. Love who was promoted to president.

Mr. Park was director in the association and both he and Mr. Love have been members of the executive committee for several years.

SUB SUNK. (Continued From Page One)

He interrupted his conversation frequently to watch the plane dive at plane-towed targets high over Wheeler Field.

"We were flying along in pretty heavy weather," Lieut. Edmundson related. "All of a sudden I happened to see the periscope just breaking the water. And within forty-five seconds my crew had flashed word to our base, the bomb doors were opened, the bomb sights adjusted, and we had dropped two bombs right at the stern of the submarine."

Crew At Stations. "Every member of the crew was at his station," the lieutenant continued. "The bombardier and the navigator must have had everything plotted—speed, altitude, wind and drift. There wasn't a second's delay. If there had been, we would never have got him, because he would have sighted us first."

"The decks were barely awash when the first two bombs were dropped. The navigator and the bombardier told me some big metal pieces flew up astern when they hit. That's probably why he did not submerge right away. He couldn't."

"Anyway, we made another turn and the bombardier dropped three more bombs that practically blanketed him, and on the third time around he hit him right on top. He just blew up and disappeared. Apparently, and all we could see was a great circle of white foam of sulphuric acid from his batteries. The concussion even shook our ship. If there had been above. A few minutes later all there was to see was a big oil slick, and after circling awhile, we went home."

MRS. W. H. NORWOOD DIRECT CHILDREN'S WEEK OBSERVANCE

WOMEN'S CLUBS, CHURCH, P.
T. A. GROUPS, LUNCHEON
CLUBS URGED TO AID

Mrs. W. H. Norwood, who recently appointed Chairman of Children's Week Observance for Navarro County by Dr. Homer P. Rainey, President of the University of Texas, and state chairman of the observance, is urging that women's clubs, church groups, Parent-Teacher Associations, and men's luncheon clubs dedicate the week of April 19-25 to the welfare of children as an important part of National Defense.

Texas Children's Week has recently been proclaimed by Governor Stevenson of Texas, who is calling to action the home, the community and the State in the defense of Democracy which requires that every child have the right start in life.

Governor Stevenson sees the immediate necessity of opportunity for home life, for health protection, for education, for moral or spiritual development of all children, and is calling upon Texans to mobilize all resources in behalf of tomorrow's citizens.

Chairmen in Various Town Appointed

Mrs. Norwood has secured capable leaders in various towns of Navarro County to serve as local chairmen for the observance in their own communities as follows: Dawson, Mrs. Floyd Smith; Kerens, Mrs. Homer Carroll, Jr.; Blooming Grove, Mrs. L. R. Low; Richmond, Mrs. Preston Ingram; Midland, Mrs. John Grantham; Navarro, Mrs. R. M. Jennings; Frost, Mrs. W. V. Harrison; Barry, Mrs. Richard E. Burselson; Powell, Mrs. H. R. Emerson; Emhouse, Mrs. Walter Hamilton; Angleton, Mrs. John Ware; Corbett, Mrs. C. E. Williams; Purdon, Mrs. W. H. McCraw; Pickett, Mrs. Myrtle Livingston; Corsicana, Mrs. Lynne Wortham.

Subjects Suggested

In order that organizations of the city and county may plan programs for Children's Week observance, the following suggested topics for each day are offered:

Sunday, April 19th

"They Have a Right to a Religious Faith."

In a discussion of this subject, it might be emphasized that the home must teach and exemplify spiritual truths, the church must interpret religion to its children and youth, the school must encourage appreciation of spiritual values, and the community must strengthen its spiritual resources.

Monday, April 20th

"Their Defense Is the Security of the Nation."

The home must teach tolerance and guard against prejudice, must provide emotional security, must demonstrate principles of Democracy, and must insure economic security are truths that might be handled as separate topics under the above subject.

Tuesday, April 21st

"Their Education Is Democracy's Strength."

A discussion of this subject should answer the question: what are we doing to develop the democratic way of life in our schools, how youth can be kept in school, how school programs may be vitalized, and how the school may foster morale through the direction of students in war efforts.

Wednesday, April 22nd

"Through Play They Learn To Pull Together For the Common Welfare."

That the home should regard the play activities of children seriously, and that there should be constructive supervision for recreational activities could be emphasized in a round-table discussion of the above subject.

Thursday, April 23rd

"Our Nation Does Not Need Their Toll."

In the presentation of this topic, a study should be made of State Child Labor Laws, and the child labor situation in the community should be discussed.

Friday, April 24th

"Their Health Shall Insure A Sound People For the Future."

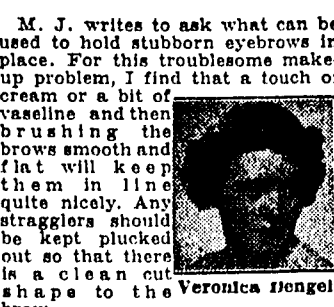

Facts concerning public health resources of the community should highlight a discussion of the above subject.

HEALTH, BEAUTY AND POISE

HOW TO IMPROVE YOUR PERSONALITY
By VERONICA DENGEL

FROM THE MAIL BAG.

Veronica Dengel

M. J. writes to ask what can be used to hold stubborn eyebrows in place. For this troublesome make-up problem, I find that a touch of cream or a bit of vaseline and then brushing the brows smooth and flat will keep them in line quite nicely. Any stragglers should be kept plucked out so that there is a clean cut shape to the brow.

D. P. Bicycling and swimming will help to develop the legs, and massaging them with a little cream to stimulate better circulation is also helpful.

H. Y. Everything you eat does not turn to fat, as you say; it is because you are eating too much of the fattening foods. You should be ashamed—at 28 years to weigh 180, even though you are 5 feet and 6 inches tall. You admit that you have a sweet tooth—so there is proof that you are indulging your desire for the sugars and starches that do turn to fat. Start your meals with a big salad—and promise yourself that you won't eat anything else until you have finished the salad—then you won't have as much room for the other things. And keep that promise.

E. M. L. When taking the Epson's Salts bath, the water should reach to the waistline only—not higher. Stay in the tub for six to ten minutes—not longer. Use one pound of the salts to that much water—and the water should be about 108 degrees temperature.

T. C. The only sure way of firming the breasts is to exercise so as to develop the pectoral muscles—those just above the breast. Pressing the fingers together in short jerking movements or grasping the right wrist with the left hand—elbows bent—and arms held at short level—then pushing in short jerks, is also helpful. The point is to feel the movement in the chest muscles. Swimming, golf, and all arm swinging movements are most helpful, too.

K. W. Your pimples should disappear as you follow the cleansing diet. And as you follow the cleansing diet your excess weight will disappear. But how can I send you the diets which you requested?

All requests for person "Health Beauty and Poise" information follow by Veronica Dengel's column follows: must be accompanied by a fully self-addressed, stamped envelope (a.s.e.) Address: Veronica Dengel in care of this newspaper.

NEGLECT CAUSES MUCH SUFFERING AMONG CHILDREN

BOTH DIPHTHERIA, SMALL-
POX ARE DECLARED TO BE
ABSOLUTELY PREVENTABLE

AUSTIN, April 2.—(Sp.)—"The cruelty of our war-time enemies is no more deplorable than the cruelty of American indifference which every year allows thousands of small children to suffer and possibly die from diphtheria and smallpox when these two diseases are absolutely preventable," Dr. Geo. W. Cox, state health officer, said today in commenting on President Roosevelt's act in setting aside May 1 as Child Health Day.

"There is no more important phase of national health than national child health, and the tragic annual death rate from diphtheria and smallpox is difficult to understand when we remember that science has produced successful immunization for the prevention of both these diseases," Dr. Cox said.

In pointing out the necessity for preventing epidemics, lowering the death rate from communicable diseases and elevating national health standards, Dr. Cox stressed the fact that if all parents would co-operate with the president in his campaign to have every child in the United States over nine months of age immunized against diphtheria and smallpox, these two killing diseases would be completely eliminated as threats to the health of American children.

President Roosevelt has asked

the co-operation of all American parents in this nation-wide campaign to stamp out diphtheria and smallpox, by immunizing all children nine months of age.

With our country in urgent need of its entire manpower to successfully defend itself against an aggressor enemy, President Roosevelt has asked the same close co-operation in health matters that he expects to receive in all phases of our defense program.

Dr. Cox has notified all local chairmen of health and emergency medical service in the State of Texas that he as state chairman on health and emergency medical service, will greatly appreciate their complete co-operation in this vital matter, and urging them to give this activity in their communities full support as the most important measure for the wartime protection of our civilian population.

"I sincerely hope," Dr. Cox said,

that Texas will co-operate with President Roosevelt in this child health campaign to the extent that every child in Texas will have been immunized against diphtheria and smallpox by May 1, National Child Health Day."

that Texas will co-operate with President Roosevelt in this child health campaign to the extent that every child in Texas will have been immunized against diphtheria and smallpox by May 1, National Child Health Day."

President Roosevelt has asked

the co-operation of all American parents in this nation-wide campaign to stamp out diphtheria and smallpox, by immunizing all children nine months of age.

With our country in urgent need of its entire manpower to successfully defend itself against an aggressor enemy, President Roosevelt has asked the same close co-operation in health matters that he expects to receive in all phases of our defense program.

Dr. Cox has notified all local chairmen of health and emergency medical service in the State of Texas that he as state chairman on health and emergency medical service, will greatly appreciate their complete co-operation in this vital matter, and urging them to give this activity in their communities full support as the most important measure for the wartime protection of our civilian population.

"I sincerely hope," Dr. Cox said,

that Texas will co-operate with President Roosevelt in this child health campaign to the extent that every child in Texas will have been immunized against diphtheria and smallpox by May 1, National Child Health Day."

EIGHT MEMBERS OF CREW OF TORPEDOED TANKER MISSING MEDIUM SIZED NORWEGIAN VESSEL SUNK OFF ATLANTIC COAST MARCH 27

WASHINGTON, April 2.—(P)—A medium sized Norwegian merchant vessel has been torpedoed off the Atlantic coast, the navy announced today, but no detail as to the torpedoing was made available here.

GLOUCESTER, N. J., April 2.—(P)—Battered and set afire by torpedoes from an enemy submarine, a medium-sized Norwegian tanker sank under a hail of shells off the Atlantic coast early on the morning of March 27, the fourth Naval district announced today. Eight of the crew of 37 including most of the ship's officers, are missing and believed dead. The 29 survivors were picked up by a Portuguese freighter after spending about seven and one-half hours in two lifeboats and were brought here March 31.

The 58-year-old chief engineer of the tanker said the attack came without warning about 2:30 a. m. The ship was struck by two and perhaps three torpedoes, he said, and was bombarded by about 60 shells before she finally went down.

The first torpedo struck just forward of the bridge on the port side, setting the bridge afire. It was followed almost immediately by a second which struck just behind the amidships section, the chief engineer said.

The crew abandoned ship within a few minutes after the attack. The submarine then rose to the surface and shelled the burning hulk until it sank five hours later.

One survivor who was in his cabin when the attack began, said a third torpedo hit the ship on the port side, aft, after two lifeboats were launched.

He said the bridge and oil-soaked sections of the ship were ablaze when he reached the deck after the first explosion, and that apparently none of the ship's officers who were on the bridge were saved.

The submarine was sighted by the survivors about two hours after the attack. They said it remained on the scene until about 8 a. m.

The men drifted in the lifeboats until mid-morning, when they were sighted and picked up by the freighter.

Thirty-Five Crewmen Safe. AN EAST COAST CANADIAN PORT, April 2.—(P)—Thirty-five crewmen from a torpedoed merchant ship have arrived here, most of them suffering from injuries and exposure.

The men, rescued by another merchant ship, were taken to hospital on their arrival.

No details of the sinking were available.

NAVY COMMISSIONS NEW DESTROYER AT BROOKLYN YARD

NEW YORK, April 2.—(P)—Amid the din of workmen's hammers on two new battleships, the Navy today commissioned the 1,650-ton destroyer Farenholt at the Navy Yard, Brooklyn.

Rear Admiral Edward J. Marquardt, commander of the Third Naval District, told the 200 officers and men and 150 guests that

PACIFIC WAR COUNCIL HAS FIRST MEETING

With President Roosevelt presiding, the United Nations representatives on the new Pacific war council gathered around the big table in the cabinet room of the White House for their first meeting. Around the table, starting at left: Dr. T. V. Soong, China; Walter Nash, New Zealand; Dr. Herbert V. Evatt, Australia; Viscount Halifax, Great Britain; President Roosevelt; Hume Wrong, Canada; Dr. Alexander Louden, Netherlands, and Harry Hopkins, special assistant to the President.

Whiskey Better Than Water For Heebie-Jeebies

By HOWARD W. BAKESLEE. BOSTON, April 2.—(P)—It is better to drink whiskey than water if you want to avoid the kind of heebie-jeebies which doctors call polynuritis.

This was shown in a report today to the Federation of American Societies for Experimental Biology by S. V. Lowry, W. H. Sebrell, F. S. Daft and L. L. Ashburn of the National Institute of Health, Bethesda, Maryland.

These heebie-jeebies, which run to anything from wobbly eyes to pink elephants, afflict chronic drinkers. Until a few years ago these woes were attributed to strong drink. Then doctors discovered that the cause was not alcohol but the fact that the hard drinkers didn't eat enough, especially not enough vitamin B-1. On a quart of whiskey a day they were cured simply by making them eat.

Now comes the pay-off. The National Health Institute doctors gave the heebie-jeeby diet to rats. Some of the animals were given water to drink with this deficient diet, some alcohol and some whiskey.

The animals all got the heebie-jeeby condition. But without exception the rats drinking only water got it earlier than their mates who drank either whiskey or alcohol.

The rat state of seeing pink could be prevented, no matter what they drank, by giving them vitamin B-1.

"This ship is being commissioned in the presence of the construction of two of the most modern battleships in the world."

The destroyer, completed at a cost of \$6,000,000, was launched Nov. 19 by the Bethlehem Steel Corp. at Staten Island. She was handed over to her new commander—whose name is a naval secret—by Capt. Harold V. McKittick, senior captain of the yard.

The ship was named after the late Rear Admiral Oscar W. Farenholt and a telegram was received at the ceremonies from Rear Admiral Herman F. Farenholt, Medical Corps, USN, son of the late Rear Admiral.

CONNALLY FEELS MORE OPTIMISTIC OVER SITUATION

SITUATION GIVEN SENATE COMMITTEE BY ADMIRAL HART REASSURING

WASHINGTON, April 2.—(P)—Chairman Connally (D-Tex.) said today that on the basis of information given the senate foreign relations committee today by Vice Admiral Thomas C. Hart he was encouraged to believe that the United States forces were sufficiently strong to hold Australia as a base for future offensive action.

Hart, appearing before the committee in a closed session, was said to have been questioned in detail about the disposition of allied forces in the Southwest Pacific, where he turned over the command of the United National Naval units to a Dutch admiral before the fall of Java to the Japanese.

"Apparently," Connally told reporters, "the military and naval situation in the Southwest Pacific is much more helpful than some of us had thought. From such information as it available, in my opinion the United Nations have been able to get considerable sup-

M'ALLEN BOY MAY BE YOUNGEST VET OF FOREIGN WARS

HOUSTON, April 2.—(P)—At 17 years of age, Robert Neal Ely of McAllen, Tex., has been in two armed services and narrowly missed being killed in the Japanese attack on Hawaii.

The youth is believed to be the United States' youngest veteran of foreign wars. Ely enlisted in the army in August, 1941, at Brownsville and was sent directly to the Schofield barracks in Hawaii. He said he told the recruiting officer he was 18 because "I knew I was too young to enlist."

Officers at Schofield barracks insisted on a birth certificate and the paper, sent by Ely's mother, piles and aircraft to Australia.

"Australia has brought back many of her land troops and on the whole I believe that the United Nations will be able to hold there while offensive power is being built up."

Admiral Hart, reviewing operations in the whole Pacific war theater, was said to have declined to estimate how long American and Philippine troops could hold out on Luzon and Corregidor in the Philippines before reinforcements came.

Mrs. Irene Johnson of McAllen, revealed he was under-age. He was given an honorable discharge and returned home. In the interim, however, the Japanese attacked Hawaii. "I didn't even get a scratch, but less than a block from where I was standing guard, 700 men were killed by the attack at Wheeler Field."

Yesterday Ely enlisted in the Marine Corps, which admits 17-year-olds. Sgt. W. M. Feigle of the recruiting station said he believed Ely was the youngest veteran in the United States. "To be a veteran of foreign wars," he said, "you must return to this country."

FARM LABOR

(Continued From Page One) months' growing and harvesting season.

Increased livestock creates another problem, that of raising feed as well as caring for the animals, and cattlemen have already experienced a labor shortage. Along the Texas gul coast, dotted with dense industries, a number of herds have been sold because there was not enough help to care for them.

R. D. McCrum of the Work Projects Administration, says WPA workers will be required to accept farm work if they are capable of performing it and if prevailing wages are paid—no matter how low the prevailing wages may be.

Name Approved Paris Camp. PARIS, April 2.—(P)—The Lamar County army cantonment now under construction here will be known as Camp Masey.

Sam Weiss, commander of the Paris American Legion Post, received a telegram from Senator Tom Connally stating that the secretary of war had approved the name in honor of Major General Sam Bell Masey, Paris veteran of the war with Mexico and the Civil War and once United States senator from Texas.

Statewide USO Program AUSTIN, April 2.—(P)—A statewide program for the U. S. O. will be discussed at a luncheon meeting here Friday with Harry C. Weiss of Houston presiding. Governor Coke R. Stevenson will speak.
